

How to prepare an abstract for the 14th International Conference on Solid State Chemistry

A. Firstauthor¹, B. Secondauthor², Z. X. Coauthor³

¹ *Affiliation of presenting author, address, underlined;* ² *Affiliation of the second author, address;* ³ *Affiliation of the third author, address*

* *The corresponding author e-mail: user@domain.xy*

Keywords: at least five keywords required

The abstract must be prepared on a sheet of A4 size (297x210 mm) with all margins equal to 25 mm. The single-spaced text should be typed in Times New Roman font with use of the Microsoft Word editor (any version).

Start at the top of the page with the title of your contribution (font size 14 pt., bold, left aligned). Skip two lines below the title and type the authors' name(s) in the following order: initial(s), surname (font size 12 pt., left aligned). Underline the name of the presenting author. On a next line, enter the affiliation of each author with full postal address; telephone and e-mail connection of corresponding author are desirable (12 pt., left aligned).

Then skip two lines and write the keywords.

Afterwards skip two lines and begin your abstract text (12 pt., justified). Font size 12 pt. is mandatory since the abstract will be reduced (B5 format) for a hard copy booklet, "Book of Abstracts". Therefore, a smaller font may not be legible. One page is allowed for the abstract. You can place any text, equations, figures, references, etc. within the area available. For scientific equations, use only standard characters, Microsoft Equations Objects.

In case you wish to modify anything later, please resubmit your revised abstract to the Organising committee (ssc2020@tnuni.sk). Please do not submit the revised abstract as a new paper. It is not possible to change the title of the presentation.

Thank you for observation of the above instructions.
